

JUST MARRIED FOR BETTER OR WORSE

**We wish you nothing but the best.
But how would you manage if you found
yourselves facing the worst?**

That's where life or critical illness cover comes in. It helps protect you both by paying out if one of you were to die or get an illness you're insured against,* whichever happens first while you're covered by the plan.

£50,000 of life or critical illness cover could cost just less than £25 a month.¹

**And with peace of mind like that, you can concentrate
on building a wonderful life together.**

*Not all insurers cover the same illnesses, and definitions for illnesses may vary.

Source: 1 Royal London Personal Menu plan, September 2019. £24.72 based on a 29-year-old non-smoking couple, 25-year term, level lump sum, no children's critical illness included, including £2.60 plan charge.

To find the best way to protect you and your family, talk to us today.
